MEMORANDUM

DATE: August 2011

FROM: CV ANTHC Environmental Staff

SUBJECT: Health Clinic Repairs – Shishmaref, Alaska
Environmental Consideration
Amendment No. 2 to CPA, Project No. AN 08-GL2

TO: IHS NEPA Determination

Federal funding for this project requires an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA). The Alaska Native Tribal Health Consortium (ANTHC) uses the Indian Health Service (IHS) environmental review procedures as outlined in the Environmental Review Manual, issued in January 2007. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of actions and construction activity that do not have a significant impact on the environment.

The original scope of work for Project AN 08-GL2 was to repair and replace components of the sewage disposal system for the existing Shishmaref Health Clinic.

The Denali Commission concurred with ANTHC's recommendation that Project No. AN 08-GL2 be categorically excluded from further National Environmental Policy Act (NEPA) review on January 16, 2009. This amendment changes the amounts in the final funding and cost tables, and the environmental impacts reviewed are within the scope of the original document and consistent with current regulations. No additional environmental review is necessary at this time.
