Total	\$1,000,000.00	\$0.00	\$0.00	\$0.00	\$1,000,000.00

This Financial Assistance Award approved by the Federal Co-Chair of the Denali Commission constitutes an obligation of federal funding.

WFLHD has copies of plans developed by R&M for construction of the harbor facilities in Coffman Cove. The plans have not been updated since 2002. The Denali Commission is requesting a delivery plan recommendation on what is possible with the \$1,000,000 or how much additional funding is needed.

The scope of this project is to make a recommendation to the Denali Commission on "next steps" for the Coffman Cove dock, including an estimate of the cost to update any existing plans, fulfill environmental requirements, and advertise and construct the project. Once the Denali Commission knows the potential options and costs, they will determine whether they will provide additional funding for this project. When, and if, additional funding or a scaled back project to match existing funding becomes viable, the Denali Commission will request WFLHD to conduct NEPA, Design the Project, advertise and award the construction contract, and provide contract administration for construction. Once the recommendation on "next steps" has been made to the Denali Commission, a separate project agreement will need to be developed that identifies any additional funding that will be needed to fully cover PE, CE, Construction award, contingencies, and claims.
