

## **Denali Commission Quarterly Report**

**10/01/2004 – 12/31/2004**

The Code Blue Steering Committee had a face-to-face meeting in September 2004. Since that meeting there have been several teleconferences to keep up-to-date on activities.

In September grant funds, for a total of \$112,678, were awarded to all of the regions except North Slope Borough, for various purchases. After the awards, all but \$214,167 had been allocated. We applied for an extension of the grant, which was approved. The new date is June 30, 2005.

Most of the regions are on schedule with spending and purchasing of items. Yukon Kuskokwim Health Corporation has spent their money and the other regions are on track. A majority of the purchases are on Communications Infrastructure.

The group meet in December, by teleconference, to discuss plans for the remaining money. At this point, there are several possible expenditures but the group may await final approval of any projects until our next face-to-face meeting on March 23 and 24 in Anchorage. This will give all the regions a chance to survey agencies, prioritize needs, and obtain approval from each of the regional boards, when required.

Respectfully submitted,
