Re.: Modification of work plan, Denali Commission award 195-05

Dear Ms. Goto:

I received your February 27, 2007, request for modification of the project work plan to delete the testing component of the project and associated budget changes.

The rationale you provided for your proposed modification seems reasonable. However, the testing component is called for in law and is now a part of the amended Denali Commission Act.

I will approve your proposal with the following conditions:

- (a) First Alaskans Institute will incorporate in the final work product (deliverable) the rationale for deletion of the testing that was called for in law; and
- (b) First Alaskans Institute will provide guidance / recommendation in the project deliverable on how meaningful testing could / should be accomplished in the future to meet Congressional direction.

Please let me know if you agree with the above provisions and I will attach our correspondence to the award file to document the modification.

Sincerely,

A handwritten signature in cursive script that reads "Paul McIntosh".

Paul McIntosh
