

MAY 22 2003

May 19, 2003

Dear Jeff Staser, Al Ewing, Paul McIntosh, and Denali Daniels,

We enclose a final accounting and some photos of the work done with the Denali Funding which we received in December 02. The grant from Denali really saved the Long House project and gave us the final funding needed. We, and the whole community here, can't thank you enough for recognizing our need, and stepping in at the right moment with your support.

As you can see from the report and photos, Denali funds went into the gas and water plumbing, lumber for windows and stairs, electricity, audio/video and computer equipment, floor finishing and hand Laundromat equipment. We are just about done with all the little details of finish work now in time for our first big conference here - the Alaska Mental Health Board meeting on June 12-14. Residents at Ionia are using the Long House extensively every day for everything from our daily group meetings to community dinners to carpentry, sewing, office work, outreach, and family movies at night. It has added a much needed community dimension to our programs. Ionia is starting a new substance abuse prevention program in the Long House, and are our dream to become a working, sustainable organic farm now has a viable forum for development.

We are having a Funder's Lunch and Community Open House on August 15th. We sincerely hope you can make it down for this, we'd love to show you the "finished results" of your grant.

Sincerely,

Barry Creighton
