For Solid Waste Equipment
Award No. 193-05
July 2005*

1. Scope of Work

The City and Borough of Sitka will improve the management of its solid waste with the purchase of two pieces of solid waste equipment: a tub mill grinder in the amount of \$248,000, and a metal and fabric covered area designed to control recycled materials and protect the materials from the weather in the amount of \$98,000. The objective is to support the composting and recycling operations for the City and nearby communities in the Borough. Sitka currently ships its solid waste off-island. More efficient processing and recycling will reduce this cost burden.

The City and Borough has title to property for a future Class III landfill and ADEC approvals are in progress.

The amount of this Award is not to exceed \$346,000. Sitka will provide in-kind services up to \$12,000 to site and support construction needed for the two award projects

All Commission funding is intended for use for the scope of work identified in the Award document only. Any balance of funds remaining after the full scope of work has been completed will be returned to the Denali Commission.
