***Award Conditions to the Financial Assistance Award
Between the Denali Commission and Alaska Energy Authority
For Bulk Fuel Consolidation Upgrades & Power Generation—2005 & Beyond
Award No. 165-05, Amendment 2
February 2006***

All changes to the award conditions are noted below.

1. Scope of Work

A list of additional authorized projects, and authorized funding levels, is appended, and made part of this award. An additional \$12,176,000 in new funding is provided for a total funding amount under this award of \$20,183,005. This specifically includes \$2.75 million for the Nome Power Plant relocation project, and \$1,500 for AEA's administration of those funds separately from normal full construction oversight functions. The scope of work is enhanced by this amendment to add the task of carrying out economic analyses of proposed energy projects when requested specifically by the Denali Commission. It is anticipated that evaluations may be requested for new power plant, wind power generation, tie-lines, hydroelectric projects, heat recovery, etc. associated with projects on the statewide deficiency lists. It may include projects proposed by AVEC, AEA and other funding partners. It will also include ad hoc requests for evaluations of funding requests for other energy projects not on the statewide deficiency lists. Level of detail and effort will be specifically called out for each requested analysis, and a budget will be developed for each task.

2. Award Performance Period

The Award performance period is extended by this amendment, and becomes February 1, 2005 through December 31, 2008. This is the period during which Award recipients can incur obligations or costs against this Award. Due to the nature of this follow-on award, costs incurred after December 8, 2004 but prior to February 1, 2005 for elements which have been carried forward from a previous award are allowable under this award.

3. Reporting

The following paragraph is added to your reporting requirements for this award. This new requirement has previously been communicated to you by a letter. This amendment formalizes the requirement. It is anticipated that these reports can soon be submitted through the online database.

- b. **Standard Form 269A Financial Status Report – Short Form (SF269A)** shall be submitted on a quarterly basis via fax, e-mail or mail. As with the Progress Reports, the SF269A is due within 30 days of the end of the quarter and a final SF269A is due within 90 days of the end of the Award Performance Period. Please note the following:
- i. This report cannot yet be submitted through the Denali Commission On-line Project Database and therefore must be submitted via fax, e-mail or mail.
 - ii. This form is available on the Internet at <http://www.whitehouse.gov/omb/grants/sf269a.pdf>. A link to this site is also

available on the Commission's website, www.denali.gov, under the "Finance" section. A Guide to Completing the SF269A can also be found on the Denali Commission's website under the "Finance" section.

- iii. The SF269A may be filled out electronically using the above link. However, the completed SF269A must be printed and signed, and then the completed SF269A must be submitted to the Deputy Director of Administration via mail, fax or as a PDF attachment to an e-mail (nmerriman@denali.gov).
- iv. If you have multiple projects under a single Financial Assistance Award, the SF269A is required ONLY for the award as a whole, not for the individual projects.

There are no other changes to the original Financial Assistance Award, as amended.
