*Award Conditions to the Financial Assistance Award
Between the Denali Commission and the Arctic Slope Native Association
For Conceptual Design – Barrow Hospital
Project No. 0142-DC-2004-I27
August 2004*

1. Scope of Work

The Indian Health Service (IHS) has identified a new hospital in Barrow on a national prioritization list for Tribal health facility improvements. Arctic Slope Native Association, Ltd. (ASNA) currently operates the existing Barrow Hospital (Samuel Simmonds Memorial Hospital) and will operate the proposed new facility. The IHS currently owns the existing facility, and will continue to own the new facility.

The Commission is providing a total of \$2,000,000 to ASNA. Up to \$500,000 will be used to fund pre-design activities, including completion of the Program of Requirement (POR) and completion of pre-design studies for utilities, drainage, traffic studies, and existing hospital utilization. Upon successful completion of these elements and upon approval of the Program of Requirements (POR) by IHS Headquarters the Commission will authorize conceptual design funding of \$1,500,000 for the new facility space approved in the POR.

The Commission anticipates that the following key milestones will be achieved:

- Pre-design completed by October 30, 2004
- ASNA advertises/interviews/selects for hospital design September – December, 2004
- IHS approval of Program of Requirements -December 2004
- ASNA signs Architectural and Engineering (A&E) contract January 2005
- ASNA receives complete funding for design and site improvements in FY2005
- Site development activities begin January 1, 2006

ASNA shall offer to the Commission the opportunity to participate in the selection process of the design firm (not the project management firm). Given available staff time, the Commission may or may not elect to participate in the selection.

It is understood by the Commission and ASNA that the IHS will be funding the construction of the new hospital and consequently the IHS must be a participant and subject matter reviewer of all work products produced with Commission funding. This understanding will be formalized through separate Agreement between ASNA, the Commission and the IHS. The Commission reserves the right to establish a project oversight committee through its Health Steering Committee, to serve as subject matter reviewers of all project work products if the IHS is unable to fulfill this role.

All Commission funding is intended for use for the scope of work identified in the Award document only. In the event there is a balance of funding remaining after the full scope of work has been completed, the Denali Commission shall determine how the excess funds will be allocated

2. Milestones

The following milestones are identified as the major steps to be completed as part of the project. "Planned" dates for the first milestone are included here. As part of each progress report, recipients shall update the progress toward meeting these milestones (see section 7, Reporting).

6. Payments

Payments under this Award will be made through the U.S. Department of Treasury's Automated Standard Application for Payment (ASAP) system. Costs associated with this requirement shall be paid out of the project funding received by the Award recipient from the Denali Commission.
