SUBJECT: **No ACMP Review**
Lower Kalskag; Installation of Mooring Points
State ID. No.: ID2011-0504AA

Dear Mr. McConnell:

The Division of Coastal & Ocean Management (DCOM) has reviewed the Coastal Project Questionnaire and other related information for the installation of mooring points in Lower Kalskag, Alaska.

Please note that our office has previously reviewed this project. Please see the attached letter (2/1/11) stating that the proposed project does not require a State review for consistency with the Alaska Coastal Management Program (ACMP), because it does not require permits subject to the ACMP.

You are not relieved from obtaining required permits and approvals from state, federal or local agencies, before you begin the proposed work. Nothing in this letter excuses you from compliance with other statutes, ordinances, or regulations that may affect any proposed work.

This decision is ONLY for the project as described. If there are any changes to the proposed project, including its intended use, prior to or during its siting, construction, or operation, contact this office immediately to determine if further review and approval of the revised project is necessary.

Thank you for your cooperation with the ACMP.

“Develop, Conserve, and Enhance Natural Resources for Present and Future Alaskans.”

Sincerely,

Margie Goatley
Project Review Coordinator
